PETITION UNDER 37 C.F.R. §1.182

Honorable Commissioner for Patents
U.S. Patent and Trademark Office
Randolph Building, Mail Stop Petitions
401 Dulany Street
Alexandria, VA 22314

Sir:

Applicant hereby petitions the Patent and Trademark Office to convert the above-identified application from an application filed under 37 C.F.R. §1.53(b) to a national stage application, filed pursuant to 35 U.S.C. §371. As this is a matter not otherwise provided for, this petition is being filed pursuant to 37 C.F.R. §1.182.

STATEMENT OF THE FACTS INVOLVED

As is verified by the declaration of Roger L. Browdy, submitted herewith as Exhibit A, the present application was received in the office of the undersigned under cover of a letter dated October 20, 2003, from the patent office of Dr. Ludwig Brann Patentbyrå AB in Stockholm, Sweden. The letter, of copy of which is submitted herewith as

Exhibit B, clearly states that Browdy and Neimark was requested to take the necessary steps for entry into the national stage in the United States of international application PCT/SE02/00951. The executed declaration that accompanied the letter of October 20, 2003 (copy submitted herewith as Exhibit C), a copy of which was filed on October 31, 2003, with the original filing of the above-identified case, also clearly identifies the application as being the entry into the U.S. national stage of international application PCT/SE02/00951, filed 17 May 2002. Upon receipt of this letter, the case was correctly docketed for the 30-month deadline for filing a national stage application under 35 U.S.C. §371. See the Browdy declaration, Exhibit A.

The present application was filed on October 31, 2003. The transmittal letter accompanying the filing is submitted herewith as Exhibit D. Despite the clear instructions received from the client, the transmittal letter contains no indication that applicant intended the application to be a national stage application filed under 35 U.S.C. §371 of international (PCT) application PCT/SE02/00951, filed 17 May 2002.

The failure in the transmittal letter to designate the filing of October 31, 2003, as a 35 U.S.C. §371 filing was due to unintentional human error. See the declaration of Sheridan Neimark, submitted herewith as Exhibit F, and the Browdy declaration, Exhibit A.

The transmittal letter states that the application was claiming benefit under 35 U.S.C. §119 of the filing date of application no. 01017738-3 in Sweden, filed on May 17, 2001, and claiming the benefit of U.S. provisional application no. 60/301,254, filed June 28, 2001. These benefit claims were also made on the Application Data Sheet (copy submitted herewith as Exhibit E), also filed on October 31, 2003, and on the executed declaration (Exhibit C), also filed with the application on October 31, 2003. The October 31, 2003, filing date was more than a year after both the Swedish priority application filing date and the U.S. provisional application filing date.

The declaration (Exhibit C) filed with the case on October 31, 2003, states on the first page that the application "was/will be filed in the U.S. under 35 U.S.C. §371 by entry into the national stage of an international (PCT) application, PCT/SE02/00951: filed 17 May 2002"

The application was inadvertently filed without drawings, despite the fact that the specification indicates that there are eight figures. This error was not noticed by the Patent and Trademark Office and an official filing receipt was issued. The application was published without drawings (US 2004/0097834). Furthermore, a restriction requirement was mailed on April 18, 2006, without reference to the missing drawings.

POINTS TO BE REVIEWED AND ACTION REQUESTED

It is requested that all of the above facts be reviewed. It is further requested that the error made in the transmittal letter in failing to refer to 35 U.S.C. §371 when filing this case be corrected by converting the application as filed on October 31, 2003, to a national stage application under 35 U.S.C. §371. The declaration is already the correct declaration for a national stage application and identifies the international application of which the present invention was intended to be the national phase. The fee paid was sufficient to cover the fee then in effect under 37 C.F.R. §1.492(a) (as well as the fee under the same rule presently in effect). Accordingly, the requirements of 37 C.F.R. §1.495(b) were satisfied so as to avoid abandonment of the international application.

BRIEF IN SUPPORT

As is clearly set forth in the Statement of Facts above, despite clear instructions, the office of the undersigned erroneously submitted a transmittal letter filing this application as a standard national application under 37 C.F.R. §1.53(b) without advising the Patent and Trademark Office in such transmittal letter that it was intended to be the national stage of PCT/SE02/00951.

The transmittal letter (Exhibit D) filed with this case on October 31, 2003, refers to the benefit applications, which had been claimed by that international application, i.e., Swedish application 01017738-3 of May 17, 2001, and U.S.

provisional application 60/301,254, filed June 28, 2001, and requested benefit of these applications, notwithstanding the fact that, without receiving the intermediate benefit of the international application, the one-year priority period for filing the U.S. application was not met.

Not only was a mistake made in not designating the application as being a national stage application, but a further mistake was made in omitting the formal drawings that were present with the international application when the client's letter of October 20, 2003, was forwarded to us.

The Browdy declaration (Exhibit A) indicates that the paralegal in the department in charge of filing new applications who was responsible for filing the above-identified case on October 31, 2003, was Ms. Jennifer Udezue. Ms. Udezue is no longer an employee of Browdy and Neimark and so it cannot be determined how this mistake was made. Her supervisor, Mr. Gregory Kimmel, is also no longer employed by Browdy and Neimark, so he cannot help determine how the mistake was made. The declaration of Sheridan Neimark (Exhibit F), who signed the transmittal letter of October 31, 2003, indicates that he inadvertently overlooked the errors committed by the paralegal in charge of preparing new applications for filing.

It is believed that both of the errors in filing this application can be corrected by the simple expedient of converting the application as filed on October 31, 2003, to a national stage application, filed under 35 U.S.C. §371. While

the identification of the international application does not appear in the transmittal letter (Exhibit D) or the Application Data Sheet (Exhibit E), it does appear in the declaration (Exhibit C) as filed, and it is believed that the declaration can be considered by the PTO to be the controlling document.

Furthermore, the payment of \$1,276.00 made upon filing of the application (including the deficiency of \$162.00 charged to the deposit account of the undersigned on November 4, 2003) was sufficient to cover the basic national fee as required by 37 C.F.R. §1.495(b)(2) and §1.492(a)(3), which would have been \$1,080.00 as of October 31, 2003, and it is requested that the fee paid on October 31, 2003, be considered to include this basic national fee. It was not sufficient to cover the extra claims fee as well, but this can be corrected by the issuance of a Notice of Missing Parts, which, if timely responded to, will not affect the filing date of the application. Indeed, applicant hereby authorizes that all necessary charges for extra claims fees and multiple dependent claim fee that may be due in this case after conversion to a national stage application, be charged to Deposit Account No. 02-4035 of the undersigned firm. Please take note, however, that applicant hereby claims small entity for this application. Indeed, this application was entitled to small entity status as of its filing. Thus, any such additional fees should be charged at the small entity rate.

It is requested that the specification and drawings as received by the Patent and Trademark Office from the International Bureau be considered the specification, claims and drawings of the present application and that the specification filed on October 31, 2003, be considered only a confirmation copy of the specification. Doing so will correct the error of failure to file drawings in this case. Submitted herewith is a substitute transmittal letter (Exhibit G) as should have been filed on October 31, 2003, including courtesy copy attachments as referred to therein, and a supplemental ADS (Exhibit H). As this is not a revival, the fees in effect at the time of filing should be applicable, and these are indicated in the substitute transmittal letter. If this petition is granted, please substitute the transmittal letter submitted herewith as Exhibit G for that filed October 31, 2003, enter the supplemental ADS (Exhibit H), and act upon this case in accordance therewith.

The undersigned is unaware of any provision of the statutes or regulations that would prohibit this conversion from being made. If this conversion or correction is accepted such that the papers filed on October 31, 2003, are considered to be a filing under 35 U.S.C. §371, then all requirements of 37 C.F.R. §1.495(b) were timely satisfied to avoid abandonment of the international application and no revival of that application is necessary.

As a precaution, also submitted on even date herewith is a conditional petition to revive International

Application No. PCT/SE02/00951, so as to file a new national phase application, along with accompanying documentation. It is being filed immediately in order to comply with the requirement that there be no intentional delay in the filing of same. However, the necessity of the petition to revive will be moot if the present petition is granted. Accordingly, the petition to revive is explicitly being made contingent on the ultimate denial of the present petition. If the present petition is granted, the conditional petition to revive should be disregarded and no fees charged therefor as the international application will not have been abandoned but will survive in the present national stage application. Only if the present petition is ultimately denied should the petition to revive be treated as an active petition for decision.

A response to the restriction requirement of April 18, 2006, is being filed on even date herewith so that no dates are presently running against applicant with respect to this case.

The petition fee for filing a petition under 37 C.F.R. §1.182 of \$400.00 is attached (37 C.F.R. §1.17(f)).

CONCLUSION

Granting of this petition and conversion of the application filed October 31, 2003, to a national stage application filed pursuant to 35 U.S.C. §371, which

In re of Appln. No. 10/697,943

application is the national stage of PCT/SE02/00951, filed May 17, 2002, are earnestly solicited.

DECLARATION OF ROGER L. BROWDY

Honorable Commissioner for Patents
U.S. Patent and Trademark Office
Randolph Building, Mail Stop Petitions
401 Dulany Street
Alexandria, VA 22314

Sir:

I, the undersigned Roger L. Browdy, hereby declare
and state as follows:

I am a partner in the law firm of Browdy and
Neimark, PLLC ("Browdy and Neimark"), and have been a partner
since 1976.

As a partner of Browdy and Neimark I am familiar
with all of its standard practices and protocols, and I am one
of the ultimate custodians of the documents and files thereof.

I have reviewed the Browdy and Neimark file of
application no. 10/697,943. Submitted herewith as Exhibit B

is a copy of a letter received from our client, Dr. Ludwig Brann Patentbyrå AB, on October 20, 2003. This letter bears the Browdy and Neimark receipt date stamp and shows in handwriting thereon the docket number and docketed date placed on the letter by the Browdy and Neimark docketing department. It can be seen that the docket number was STOLTZ=11, and the priority deadline (PDL) was stated as 17 November 2003, which was the 30-month deadline from the original priority date of 17 May 2001. Thus, when the order letter was received, it is apparent that the docketing department recognized that a national stage application was intended with the 30-month deadline being correctly docketed for November 17, 2003.

As can be seen from the client's letter (Exhibit B), the PCT publication number was provided with a statement that a copy would follow by mail, and an executed copy of the declaration for patent application and power of attorney (submitted herewith as Exhibit C) was sent both by mail and by fax.

It is clear to me that there was no ambiguity in the instructions and that Browdy and Neimark had been instructed to enter the national stage for PCT application PCT/SE02/00951.

The Browdy and Neimark file next shows that this application was filed on October 31, 2003, with a transmittal

letter, submitted herewith as Exhibit D, that makes no reference to the international application. However, the declaration (Exhibit C) submitted with the new application on October 31, 2003, did explicitly say that the application was being filed under 35 U.S.C. §371 by entry into the national stage of international (PCT) application PCT/SE02/00951, filed May 17, 2002. Furthermore, it can be seen that the transmittal letter (Exhibit D), the declaration (Exhibit C), and the Application Data Sheet (ADS) filed with the application (submitted herewith as Exhibit E) all claim benefit of Swedish application no. 01017738-3, filed May 17, 2001, and claim the benefit of U.S. provisional application no. 60/301,254, filed June 28, 2001. The transmittal letter (Exhibit D) was signed by Sheridan Neimark, who is also a partner of Browdy and Neimark. A declaration by Mr. Neimark explaining his part in the incorrect filing is submitted herewith as Exhibit F.

It is also apparent from the cover letter that the application was filed without any sheets of drawings, despite the fact that the specification indicates that eight figures should be present.

A further review of the Browdy and Neimark file shows that a filing receipt was mailed by the Patent and Trademark Office (PTO) on February 2, 2004. No communication

was received from the Office of Initial Patent Examination pointing out the fact that the specification refers to a drawing but no drawing was submitted. A notice of publication of application was mailed by the PTO and received at Browdy and Neimark on May 28, 2004, indicating that this application was published as US-2004-0097834-A1 on May 20, 2004. This publication includes no drawings.

The Browdy and Neimark file shows that an official action was issued on April 18, 2006, in the nature of a restriction requirement. There is no mention therein of any informalities with respect to the drawings or the priority request. These informalities were noticed by the Browdy and Neimark docketing department after the restriction requirement of April 18, 2006, was received. The file was then brought to me, and steps were immediately taken to correct the errors that were made when the case was originally filed on October 31, 2003.

While the transmittal letter (Exhibit D) does not indicate who prepared the application for Mr. Neimark's signature, the Browdy and Neimark file shows that the filing of this application was reported to the client on October 31, 2003, and that this letter was typed by "jlu," who is Jennifer Udezue, then a paralegal in the filing department of Browdy and Neimark. It is the practice at Browdy and Neimark that

the person who files the application is the one who drafts the letter to the client reporting the filing of the application. Thus, it is apparent that it was Ms. Udezue who made the errors on the filing of the application. Ms. Udezue is no longer an employee of Browdy and Neimark. However, this is the first instance of this sort that has been brought to our attention of a significant error that was made by Ms. Udezue in the filing of new applications during her employ here. Ms. Udezue's supervisor at the time in question was Mr. Gregory Kimmel. He, too, is no longer employed by Browdy and Neimark.

I hereby further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

DECLARATION OF SHERIDAN NEIMARK

Honorable Commissioner for Patents
U.S. Patent and Trademark Office
Randolph Building, Mail Stop Petitions
401 Dulany Street
Alexandria, VA 22314

Sir:

I, the undersigned Sheridan Neimark, hereby declare and state as follows.

I am a partner in the law firm of Browdy and Neimark, PLLC ("Browdy and Neimark"), and have been a partner in Browdy and Neimark since 1969.

I signed the transmittal letter filed in the above-identified application on October 31, 2003, which transmittal letter is submitted herewith as Exhibit A.

It is my usual practice before signing any such documents for filing in the Patent and Trademark Office to

review the document for correctness. Such documents are prepared by the Browdy and Neimark patent filing department for my review and signature.

Upon a recent review of the Browdy and Neimark file for this case, I noticed that two errors were made in the filing of October 31, 2003, which I failed to notice at the time that I reviewed the documents and signed them. It is apparent that the application should have been a national stage application of international (PCT) application PCT/SE02/00951, filed May 17, 2002. The papers that I signed are the type of papers that are normally used for a regular U.S. national application. Furthermore, it is apparent that the specification as filed did not include drawings, although drawings are referred to in the specification.

I do not have an explanation for why I did not notice these errors as I am usually very careful in reviewing such documents. A review of the file indicates to me that our employee Jennifer Udezue was the employee who prepared the documents. In my experience, she was a reliable employee and did not usually make such mistakes. In fact, I am aware of no other occasion where such a significant filing error was made.

I can only conclude that my failure to notice these errors at the time that I signed the transmittal letter of October 31, 2003, in this case was caused by human error and

is certainly an anomaly insofar as my practice of law is concerned.

I hereby further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
